

2023 COPIC Humanitarian Award: Dr. April Randle

We are proud to announce that Dr. April Randle, an internal medicine specialist from Cortez was chosen as the recipient of the 2023 Colorado COPIC Humanitarian award. Dr. Randle is recognized for her commitment to making a difference in health care. The award was presented to Dr. Randle at the Annual Colorado Medical Society Meeting in September.

Dr. Randle has spent the last 15 years providing health care in rural Colorado. Her dedication and tireless efforts have made a lasting impact on the lives of those living in the rural areas of Dove Creek, Cortez and Naturita, CO.

After a successful and rewarding career, Dr. Randle most recently came out of retirement to become medical director of the Basin Clinic in Naturita, CO. She has graciously given of her time to travel

from her home in Cortez, over an hour and a half one-way, to the clinic to meet with patients and agencies.

Dr. Randle is a compassionate, dedicated, and selfless individual who is always willing to help. It is my pleasure to present the Annual COPIC Humanitarian Award to Dr. April Randle and on her behalf, donate the \$10,000 to the Basin Clinic in honor of her recognition.
