Insurance Ratings

When evaluating insurance options, a company's rating does matter. And more importantly, the rating agency and their reputation matters. AM Best is widely considered the leading rating agency specializing in the insurance industry. Here's why:

- **Insurance Focus:** Unlike other major credit rating agencies, AM Best focuses exclusively on evaluating insurance companies and their financial strength.
- **Gold Standard:** AM Best ratings are often seen as the “gold standard” for evaluating an insurer's ability to meet its obligations to policyholders.
- **Long History and Trust:** Founded in 1899, AM Best has a long-standing reputation for providing independent and trustworthy assessments of insurers' financial stability.

Copic Stability

Copic Insurance Company and Copic, A Risk Retention Group hold an “A Excellent” rating from AM Best.

Other rating agencies use different methodologies that aren't recognized by the insurance industry and don't take into account reinsurance arrangements that back financial stability.
